

Generating & Viewing a WriteVue Classroom Report

Start in your Teacher Portfolio to Create and View a Classroom Report

Log into your teacher account and click on **Portfolio**.

Click on **Go to WriteVue Classroom Reports**. You can only generate Classroom Reports for writing assignments that were assigned at the school or district level, such as benchmark writing assignments, not ones that you assign to your students in class.

Transform writing results into actionable instruction with WriteVue Classroom Reports!

After completing a district- or school-level assignment, teachers can instantly generate a comprehensive classroom report that groups students by proficiency level, identifies instructional strengths and needs, and provides targeted teaching strategies. The report also includes differentiated activities for students performing below, approaching, and at proficiency, along with a ready-to-implement 5-day instructional plan designed to support growth for every learner.

Give the report a name, select one class, and select a benchmark writing assignment. You will have a green bar indicating the percentage of students who have submitted to the essay. The recommendation is to wait until all your students have submitted, since you can only generate the report one time per benchmark, per class. When you are ready to generate a report, click the blue bar that says **Generate WriteVue Classroom Report**.
