The WriteVue Solution

Generating & Viewing a WriteVue Classroom Report

Start in your Teacher Portfolio to Create and View a Classroom Report

Log into your teacher account and click on **Portfolio.**	
Click on **Go to WriteVue Classroom Reports.** *You can only generate Classroom Reports for writing assignments that were assigned at the school or district level*, such as benchmark writing assignments, not ones that you assign to your students in class.	
Give the report a name, select one class, and select a benchmark writing assignment. You will have a green bar indicating the percentage of students who have submitted to the essay. The recommendation is to wait until all your students have submitted, since you can only generate the report one time per benchmark, per class. When you are ready to generate a report, click the blue bar that says **Generate WriteVue Classroom Report.**	
If you see a red bar, the classroom report already exists and is located below.	
The WriteVue classroom reports that have been generated will be saved. Filter previous reports using the drop-down menus and click on **View Report** to open the Classroom Report.
